### The progress of Sustainability and Transformation Partnerships (STPs) and Integrated care systems (ICSs)

Sustainability and Transformation Partnerships (STPs) and, in their more mature form, Integrated Care Systems are ways of promoting collaboration between NHS bodies and local government and local communities across whole systems.

NHS Providers in their briefing [Key questions for the future of STPs and ICS](#) noted the refreshed planning guidance sets out an expectation that all STPs will develop to become ICSs that exercise greater local autonomy and are capable of taking on a wider range of responsibilities. But only 49% of trusts in their recent financial planning survey agreed that ICSs should replace STPs. NHS Providers would also welcome more recognition from the centre that this direction of travel may not be workable for all STPs.

In [A year of integrated care systems: reviewing the journey so far](#), the King’s Fund found evidence of tangible improvements in services and outcomes was limited to date, but this is to be expected given the brief time ICSs have been in existence. This must be a key priority for all ICSs going forward. They found broad consensus that the ICS model has real potential to bring about improvements in health and care, and to place services on a sustainable footing.

World Health Organization (WHO); 2018.

[This report summarizes the final recommendation and the process for developing the guideline on home-based records for maternal, newborn and child health.]
Initial code of conduct for data-driven health and care technology.
Department of Health and Social Care; 2018.

[The aim is to make it easier for suppliers to understand what is needed, and to help health and care providers choose safe, effective, secure technology to improve their services. There is a questionnaire for you to provide feedback on this initial version.]

Websites

NHS Knowledge Mobilisation Framework E-learning Programme
https://www.e-lfh.org.uk/programmes/knowledge-mobilisation-framework/

[The framework helps staff to learn before, during and after everything that they do so that best practice is replicated and pitfalls can be avoided. It introduces eleven techniques to help plan, co-ordinate and implement knowledge mobilisation activities. The e-learning programme is available to access via the e-LfH Hub and ESR. ]

Applications now open for the NHS Digital Academy

[The Academy provides a year-long world class learning programme (Post Graduate Diploma in Digital Health Leadership) for digital change leaders. Applications for the 2nd cohort, commencing in April 2019, are now open. Click for more detailed information and an application form. ]

IT Service and Support Awards

[Recognises the excellence of outstanding service desk teams and individuals and celebrates their success. Deadline: 19th October 2018. ]

Patient Experience

Guidelines
Please, write to me: Writing outpatient clinic letters to patients.
Academy of Medical Royal Colleges; 2018.

[The guidance covers general aspects of letter writing and applies to letters sent on paper and electronically. This document focuses on doctors’ letters but it is relevant to all clinicians who write clinical letters.]

Reports
NHS Digital; 2018.

[The NHS complaints procedure is the statutorily based mechanism for dealing with complaints about NHS care and treatment and all NHS organisations in England are required to operate the procedure.]

Joined-up listening: integrated care and patient insight.
The King's Fund; 2018.

[In this article, the King's Fund articulate the opportunity that integrated care presents for using insight from people and populations to design services that meet their needs and reflect their priorities. This includes breaking down siloes within and between organisations to listen to what patients are saying across their entire pathway of care.]

Websites

Patient Experience Network (PEN) National Awards
http://patientexperencenetwork.org/awards

[The PEN National Awards are the first patient experience awards in the UK, celebrating the delivery of outstanding patient experience by those involved in the health and social care industry. Deadline: 23rd November 2018.]
Alert 93                                                                                                 August/September 2018

Service Design and Commissioning

Events
Reducing long stays in hospitals: how to prepare properly for winter and learn from past pressures. [PAID EVENT. This event will highlight ways in which the health and social care system can come together to ensure that every patient receives the right care for them. Learn about practical solutions and hear about new developments.]
IET Birmingham, Date: 16th October, 2018, 9:00am - 4:30pm
https://www.kingsfund.org.uk/events/reducing-long-stays-hospitals

Guidelines
Surgical Care Team Guidance Framework
Royal College of Surgeons of England; 2018.
[This surgical care team guidance aims to help employers, surgeons and other healthcare professionals develop models of care that utilise the surgical care team in a consistent manner. It sets out distinct extended roles within the surgical team, and outlines competencies, training and clear routes of entry into these roles.]

Care hours per patient day (CHPPD): guidance for acute and acute specialist trusts.
NHS Improvement; 2018.
https://improvement.nhs.uk/resources/care-hours-patient-day-guides/ 
[This updated guide will help trusts deploy nursing and healthcare assistants more productively, so the right staff are delivering the right care to the right patients. This guide will also assist directors of nursing to identify areas of improvement within your current rostering.]

Facing the Future: Standards for children with ongoing health needs
Royal College of Paediatrics and Child Health (RCPCH); 2018.
[Provides a vision of how paediatric care can be delivered to provide a high-quality service that meets the needs of infants, children and young people with ongoing health needs.]

Reports
Building the future of care to 2028: Summary.
National Voices; 2018.
[This summary document presents a detailed account of a coherent vision for improving health and wellbeing outcomes through interlinked actions across the priority workstreams of the long term plan.]

Getting It Right In Emergency Care advice pack
GIRFT; 2018.
http://gettingitrightfirsttime.co.uk/emergency-care-available/ 
[The advice pack aims to encourage the implementation of existing good practice, but setting out examples of interventions that NHS trusts can adopt to improve patient flow and help to manage the pressures that occur in Emergency Care.]

Government response to the Health and Social Care Committee’s report on integrated care.
Department of Health and Social Care; 2018.
[The response sets out how the government intends to address the committee’s recommendations as part of the long-term plan for the NHS.]

International workforce in the UK after Brexit: nursing issues.
Royal College of Nursing (RCN); 2018.
https://www.rcn.org.uk/professional-development/publications/pub-007181 
[Given the continuing global nursing shortage and rising demand for health and care services the UK needs to be able to attract nursing staff with the right skills and attitudes to work and remain in the sector, particularly registered nurses.]
In this article, the King's Fund articulate the opportunity that integrated care presents for using insight from people and populations to design services that meet their needs and reflect their priorities.

Key questions for the future of STPs and ICSs.
NHS Providers; 2018.
http://nhsproviders.org/key-questions-for-the-future-of-stps-and-icss

This briefing summarises recent developments relevant to system working, sets out the state of play for STPs and integrated care systems (ICSs) and seeks to offer answers to a number of questions arising from the national policy focus on collaboration and integration.

A year of integrated care systems: reviewing the journey so far.
The King's Fund; 2018.

The aim of this study was to understand how Integrated care systems (ICSs) are developing and identify emerging lessons for local systems and national policy-makers.

Operational productivity and performance in English NHS Ambulance Trusts: Unwarranted variations
[Carer review]
NHS Improvement; 2018.

Offering safe and quicker care could save the NHS £300m a year by 2021, with a further £200m of savings through improvements in ambulance trusts infrastructure and staff productivity.

Provider voices: The journey to integrated care systems.
NHS Providers; 2018.
http://nhsproviders.org/provider-voices-integrated-care

The third report in our series explores the challenges and opportunities presented by STPs and ICSs.

Referral management in England.
British Medical Association (BMA); 2018.

[This briefing provides an up to date account of the referral management schemes that are currently operating in England and summarises existing evidence regarding their effectiveness.]

Rethinking outpatient services: Learning from an interactive workshop.
Nuffield Trust; 2018.
https://www.nuffieldtrust.org.uk/research/rethinking-outpatient-services-learning-from-an-interactive-workshop

[This briefing, in collaboration with health leaders across the country, reveals opportunities to improve the design of services and challenges if some services should be delivered in their current form.]

Strengths-based social care for children, young people and their families.
Social Care Institute for Excellence (SCIE); 2018.
https://www.scie.org.uk/strengths-based-approaches/young-people

[This briefing describes how SBAs work and assesses their effectiveness. The values and principles that inform this approach are not new, but there has been a rapidly growing interest over the last five years in such approaches.]

Health Facility Environment

Reports
Patient-Led Assessments of the Care Environment (PLACE) - 2018 - England [PAS].
NHS Digital; 2018.
http://www.digital.nhs.uk/pubs/place18

[PLACE assessments provide a framework for assessing quality against common guidelines and standards in order to quantify the environment's cleanliness, food and hydration provision, the extent to which the provision of care with privacy and dignity is supported, and whether the premises are equipped to meet the needs of people with dementia or with a disability.]
Measuring Outcomes and Performance

Reports

**Quality Matters: a summary of outputs one year on**
Department of Health and Social Care; 2018.

[A summary of what has been achieved by partners in the adult social care sector one year on from the launch of the Quality Matters action plan.]

**Acute medical care in England: Findings from a survey of smaller acute hospitals.**
Nuffield Trust; 2018.

[This profile of smaller hospitals in England finds trusts struggling to recruit and retain acute medical staff. Services across the country are configured in a wide variety of ways, with little evidence of an 'ideal' model for acute medical care emerging from our research.]

**Dental Working Hours - 2016/17 and 2017/18: Working Patterns, Motivation and Morale.**
NHS Digital; 2018.

[During the last six years there has been an overall drop in the motivation of dentists in England & Wales and Scotland and Principal dentists in Northern Ireland.]

**Hospital Accident and Emergency Activity, 2017-18.**
NHS Digital; 2018.

[This is a publication on Accident and Emergency (A&E) activity in English NHS hospitals and English NHS-commissioned activity in the independent sector. This annual publication covers the financial year ending March 2018.]

**Hospital Admitted Patient Care Activity, 2017-18.**
NHS Digital; 2018.

[This is a report on admitted patient care activity in English NHS hospitals and English NHS-commissioned activity in the independent sector.]

**State of maternity services report - 2018 England.**
Royal College of Midwives (RCM); 2018.

[The main findings reveal that the number of NHS midwives in England rose by just 67 in the last year, despite universities turning out over 2000 newly-trained staff. Other findings from the report reveal that the profile of the women using maternity services continues to change.]

**The state of the adult social care sector and workforce in England.**
Skills for Care; 2018.

[This report provides information about the adult social care sector including its size and shape, employment information, recruitment and retention issues, workforce demographics, pay, qualification rates and future workforce forecasts.]

Websites

**King’s Improvement Science: guide to evaluation resources.**
http://www.kingsimprovementscience.org/KIS-evaluation-guide

[This guide signposts to useful evaluation resources for evaluating health and social care initiatives, including quality improvement projects and programmes.]

**The Model Hospital.**
https://model.nhs.uk/

[The Model Hospital is a digital information service designed to help NHS providers improve their productivity and efficiency.]

Reports

Health profile for England: 2018
Public Health England (PHE); 2018.
https://www.gov.uk/government/publications/health-profile-for-england-2018
[Combines data and knowledge to give a broad picture of the health of people in England in 2018. As a society, people are living longer but often in poorer health and stubborn inequalities persist.]

European health report 2018.
World Health Organization Regional Office for Europe; 2018.
[This report shows trends in and progress towards the goals of Health 2020, the European health policy, and reveals some gaps in progress, inequalities and areas of concern and uncertainty, where action must be taken.]

Health 2020 priority area four: creating supportive environments and resilient communities: A compendium of inspirational examples.
World Health Organization Regional Office for Europe; 2018.
[WHO Europe has published a Compendium describing the actions taken by 13 countries to create supportive environments for strengthening resilience and its link to health and well-being outcomes.]

Stalling life expectancy in the UK.
The King's Fund; 2018.
https://www.kingsfund.org.uk/publications/stalling-life-expectancy-uk
[The stalling of improvements in life expectancy in the UK since 2011, highlighted again in the most recent data, has prompted much comment and speculation.]

Towards a longevity dividend: Life expectancy and productivity across developed countries.
International Longevity Centre UK (ILC-UK); 2018.
http://www.ilcuk.org.uk/index.php/publications/publication_details/towards_a_longevity_dividend
[This new international report explores the relationship between life expectancy and productivity in developed countries.]

Addressing unmet needs in women's health.
British Medical Association (BMA); 2018.
[These six briefings - each authored by experts in their field - explore in detail some of the major unmet needs in women's health, with recommendations for both policy-makers and healthcare practitioners.]

The health and well-being of men in the WHO European Region: better health through a gender approach.
World Health Organization Regional Office for Europe; 2018.
[This first ever WHO report on men's health and well-being in the 53 countries of the WHO European Region reveals men are living healthier and longer lives than ever before. The new findings are prompting calls to use a gender approach to get men's health on the agenda of health policy-makers in the European Region.]
KnowledgeShare: Update your knowledge, share your knowledge

What is KnowledgeShare?
KnowledgeShare is an innovative website that makes it easier to access personalised resources and services from the Library and Knowledge Service. The library service uses KnowledgeShare to provide services to you (including search requests, information skills teaching and evidence updates) and now you can log in to access these services directly.

We are committed to safeguarding your information. The information you supply will be used to contact you about services or resources you have requested from the Library and Knowledge Service. For further information on how we keep your information secure, and your rights to access it, read the full KnowledgeShare Privacy Policy.

How do I access it?
You can log into KnowledgeShare with your NHS OpenAthens account at www.knowledgeshare.nhs.uk. If you don’t have an NHS OpenAthens account, you can register at https://openathens.nice.org.uk.

How do I unsubscribe from this newsletter?
- To unsubscribe from this newsletter and update other user setting select ‘Your Profile’ and click edit in the top right of the Settings box. Uncheck the box next to ‘Send me news and bulletins from my Library and Knowledge Service’.

What can I do with KnowledgeShare?
- Receive personalised updates. Add your professional interests to KnowledgeShare – being as broad or specific as you like – and we will send you email updates about high-impact publications that match your interests. We aim to keep you up-to-date without overwhelming you with information.

- See previous email updates. Refer back to previous update email with links to the publications that have matched your interests. Select ‘My Matching Resources’ from the update menu to see a list of emails.

All of these features can be customised. Making your contact details, interests and searches visible to all members of KnowledgeShare promotes knowledge sharing and collaboration, but you can also choose to restrict visibility to your organisation or to Library and Knowledge Service staff only.
