

Emergency phone number

2222

Please State:

Team required / Location / Male or Female

Adding 'Covid' (if confirmed or suspected COVID-19)

Pregnant?

Obstetric Emergency

Maternal Cardiac Arrest

(Will activate the obstetric emergency, neonatal emergency and adult cardiac arrest teams)

Adult?

Adult Medical Emergency

Adult Cardiac Arrest

Anaesthetics only?

Anaesthetic Emergency

(To be used by critical care areas only)

NB Which building the emergency is in may not be obvious to the team therefore must be included. We have seven level 8s across the county site including Tower, Alex, Millennium and Renal e.g “Adult cardiac arrest, Level 8, Tower”, “Paediatric medical emergency, surgical ward, Level 8, the Alex”

The **Neonatal Emergency** team and the **Paediatric** teams are entirely different and it is important you ask for the correct team.
