

Clicking on the link will do one of the following:

- If BSUH subscribe to the **full text online**, or open access is available, the next screen will take you to a link to **'Read the full text.'** You may be prompted to enter your **NHS OpenAthens username and password.**

- If we hold the journal in **print format** only, the link will tell you which site holds this title. You will then be redirected to the Library website where you can select the option to **'Request an article'** if you are unable to visit the library in person.  
*Please note that you must be a library member to request articles*

Did you know that you can also set up links to full text articles on Google Scholar? See our leaflet on Google Scholar library links or visit [www.bsuh.nhs.uk/library](http://www.bsuh.nhs.uk/library) for details.

## PubMed library links

Brighton and Sussex Library & Knowledge Service has subscriptions to a huge range of online health and medical journals. BSUH staff and trainees can access links from PubMed to articles in these journals, often to the **full text**.

This means that when you search PubMed, your results will display a link to the **full text** of articles in the online journals subscribed to by Brighton and Sussex Library & Knowledge Service. If the journal is only available in **print format**, details on where it is held will be given.

If the article is **not available**, the link will take you to a prefilled request form.

There are two ways to view the full text links on PubMed:

### 1. Follow the special link on the Library webpage

[www.bsuh.nhs.uk/library](http://www.bsuh.nhs.uk/library) > Resources and requests > Accessing online resources

PubMed is listed under Journal Articles and Books

### 2. Link a PubMed personal account to BSUH resources

Follow the instructions below to set this up.

Go to <https://pubmed.ncbi.nlm.nih.gov> and sign in (you will need to create an account if you do not already have one)

Click on your username and select **"Account settings"**

Select "Click here to access the NCBI Site Preferences page"

In PubMed Preferences (second type of preferences) select "Outside Tool"

Browse the alphabetical list and select **Brighton and Sussex NHS Library and Knowledge Service**. Scroll back up to the top of the list and click on the "Save" button.

To return to PubMed, click on the **NCBI logo** in the top left of the screen and then select **PubMed** from the list of popular resources

When you view results on PubMed, a link to **Brighton and Sussex University Hospitals NHS Trust** will be displayed on the right of the screen under **Full Text Links**.
