Clinical Impression following Video Consultation	
<u>Pathway Assessment</u>	<u>Referral Plan:</u>
Green	Discuss with parents/carers whether fit for discharge or requires further telephone contact. Reinforce appropriate & clear guidance. Ensure they have written patient advice. Confirm they understand the illness and plan of care. Arrange time for next telephone contact.
New Amber 1 or 2	D/W CED Middle grade, ANP or consultant clinician if concerned using SBAR . Ensure clear management plan agreed with parents and reinforce safety net advice of what to do if condition changes . Arrange follow up video consultation
Amber 2 or more	SBAR format and discuss with CED Middle grade, ANP or consultant clinician. Re-attend CED (Red side) for further ACORNS RN assessment(with PPE & Covid-19 precautions) ensuring clear management plan agreed with parents if severity of condition/ parental concern increases meanwhile. Escalate to Paediatric Medical assessment after initial CED ACORNS assessment
Red	Immediate assessment in CED via 999 ambulances, SBAR documentation.
