

CARE OF LYMPHOMA INPATIENTS AT RSCH/PRH (UHSussex)

The lymphoma clinic is run by both haematology and oncology and works as a unified out-patient team with dedicated CNS and Macmillan Support Worker.

Because patients are seen and treated by 2 different teams, this causes some confusion when patients are admitted to hospital in terms of who looks after in-patients.

This document hopes to clarify this and stands irrespective of leave / who has seen patient in clinic/ who has prescribed any chemo.

Page | 1

- Please ensure an Acute Oncology Bamboo referral is completed for any Cancer patient or suspected cancer patient admitted to Hospital.

Lymphoma Team:

Consultants: Andy Webb (AW- Onc), Roz Johnston (RJ- Haem), Anita Arasaretnam (AA- Haem)

Clare Rouen (Lymphoma CNS) ext 63807, uhsussex.lymphoma.support@nhs.net
