

## D3 Defibrillator Training Videos

Dear colleagues the LP20 defibrillator fleet is being replaced with a new unit – the BeneHeart D3. The QR codes below will take you a series of training videos related to key topics / functionality on the D3. Familiarisation training will be delivered on the day of your units roll out; a training package is also on IRIS and via the new Resus padlet & familiarisation training will also be delivered during annual BLS updates.
