NOTES

CLINICAL DESIGN GROUP - 1:200

This 1:200 scale adjacency plan (based on SoA v8.0), which identifies the extent and departmental relationships and reflects the operational requirements of the departments within the 3Ts Project, is confirmed as agreed by the Trust, subject to the following caveats:

Plant locations / Risers may be subject to change during deign development.
Lift Traffic analysis is incomplet and may result in changes to lift groupings and numbers.
Fire Strategy - further development may require adjustments in staircase / lift locations / compartment and sub-compartments.
Public Health, RWP, Dry riser access and outlets are not determined on these drawings.
Design development of structural framing / envelope syatem may result in adjustments to column sixes. location and shear wall locations.

NOTES

CLINICAL DESIGN GROUP - 1:200

This 1:200 scale adjacency plan (based on SoA v8.0), which identifies the extent and departmental relationships and reflects the operational requirements of the departments within the 3Ts Project, is confirmed as agreed by the Trust, subject to the following caveats:

Plant locations / Risers may be subject to change during deign development.
Lift Traffic analysis is incomplet and may result in changes to lift groupings and numbers.
Fire Strategy - further development may require adjustments in staircase / lift locations / compartment and sub-compartments.
Public Health, RWP, Dry riser access and outlets are not determined on these drawings.
Design development of structural framing / envelope syatem may result in adjustments to column sixes. location and shear wall locations.

ALL DIMENSIONS SHOULD BE CHECKED ON SITE.

DO NOT SCALE FROM THIS DRAWING.

ANY DRAWING ERRORS OR DIVERGENCIES SHOULD BE BROUGHT TO THE ATTENTION OF BDP AT THE ADDRESS SHOWN BELOW.

FF+E LAYOUTS INDICATIVE ONLY

0 2 4 6 8 10 20m

NOTES

CLINICAL DESIGN GROUP - 1:200

This 1:200 scale adjacency plan (based on SoA v8.0), which identifies the extent and departmental relationships and reflects the operational requirements of the departments within the 3Ts Project, is confirmed as agreed by the Trust, subject to the following caveats:

Plant locations / Risers may be subject to change during deign development.
Lift Traffic analysis is incomplet and may result in changes to lift groupings and numbers.
Fire Strategy - further development may require adjustments in staircase / lift locations / compartment and sub-compartments.
Public Health, RWP, Dry riser access and outlets are not determined on these drawings.
Design development of structural framing / envelope syatem may result in adjustments to column sixes. location and shear wall locations.
