

How to find the Millennium Wing

From the main entrance:

1

Take the stairs next to the reception desk. At the top, turn right, go through the double doors. Walk up the stairs **to level 2.**

OR

Go up the slope from the main entrance to the lifts. **Take a lift to level 2.**

2

Turn left when you come out of the lifts or at the top of the stairs. Follow the corridor round the corner and up the slope.

3

Go up the slope and outside through the double doors.

4

Cross the road and continue towards the stairs ahead of you, but **do not go up them.**

5

Turn left instead and go through the sliding door. Take a lift or the stairs **down to level 3.**

6

When you reach the bottom of the stairs or come out of the lift, follow the very long corridor in front of you.

7 Before you reach the end of the corridor there are some lifts on your left and a glass sliding door on your right that leads to a stairwell. **Go up to level 6** using either a lift or the stairs.

8

From the stairs go through the doors, turn right, go through more doors and turn right again.

From the lift turn left and then left again.

You will be in a corridor with Frontier Pathology ahead of you.

9

Follow the corridor round the corner and go out through the doors. You will pass the **Courtyard Building** which is on your right.

Follow the path to the end. Just past the crossing you will see the entrance to the Millennium Wing.

The next page has a list of departments and wards that are in the Millennium Wing.

If you get lost: Look for the signs giving directions. The Millennium Wing has a blue/grey circle next to it on the signs ●

If that doesn't help please ask a member of staff.

What is in the Millennium Wing?
