

How to find the Sussex Kidney Unit

From the main entrance:

1

Take the stairs next to the reception desk. At the top, turn right, go through the double doors. Walk up the stairs to **level 2**.

OR

Go up the slope from the main entrance to the lifts. **Take a lift to level 2.**

2

Turn left when you come out of the lifts or at the top of the stairs. Follow the corridor round the corner and up the slope.

3

Go up the slope and outside through the double doors.

4

Cross the road and continue towards the stairs ahead of you, but **do not go up them.**

5 Turn left instead and go through the sliding door. Take a lift or the stairs **down to level 3.**(The lift on the right will also take you up to the restaurant).

6

When you reach the bottom of the stairs or come out of the lift follow the very long corridor in front of you.

7 Before you reach the end of the corridor there are some lifts on your left and a glass sliding door on your right that leads to a stairwell. **Go up to level 6** using either a lift or the stairs.

8 From the stairs go through the doors, turn right, go through more doors and turn right again.

From the lift turn left and then left again.

You will be in a corridor with Frontier Pathology ahead of you.

9 Follow the corridor round the corner and go out through the doors. You will pass the Courtyard Building which is on the right.

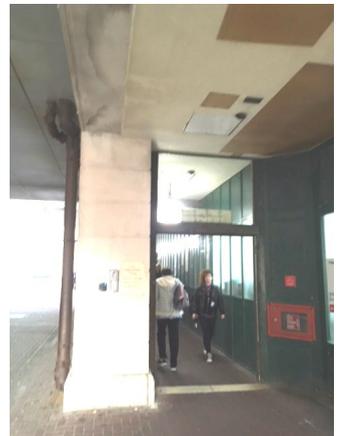

10

Follow the path to the end. Just past the crossing you will see the entrance to the Millennium Wing.

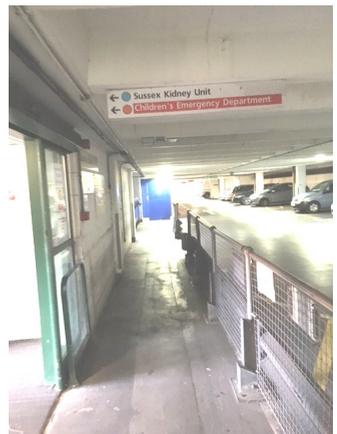

11

To the left of the entrance to the Millennium Wing there is a corridor. Follow the corridor.

12

When you are in the car park you will see a set of sliding doors. Walk through the doors and then go through the white double doors on the right. You are now in the Sussex Kidney Unit.

If you get lost: Look for the signs giving directions.
The Sussex Kidney Unit has a bright blue circle next to it on the signs.

If that doesn't help please ask a member of staff.
