The Minister said: ‘I was delighted to visit the Royal Sussex County Hospital today, where I used to work, which, thanks to the efforts of local Kempton and Peacehaven MP, will receive Government investment of £420m and be rebuilt to create the modern 21st Century hospital Brighton and the surrounding area deserves.’

Simon said: ‘I was very pleased that Dan visited Brighton today and was able to see all the excellent work that goes on here at the Sussex County and at the Sussex Beacon. Thanks to the £420m that will be invested in the Royal Sussex County Hospital, the Government is showing its commitment to the local NHS. The Sussex Beacon’s work is without compare and I was delighted the Minister found time to visit there as well.’
