Welcome to the Urology Department

Department of Urology

Patient Information
Sussex House

Please note our department is based in the basement of Sussex House, the stairs are through the entrance past the main staircase, on your right. There are two lifts down to the department with wheelchair access by going through the double door.

Facilities

There is a vending machine for hot and cold drinks. You will need change if you wish to use this.

Unfortunately there is nowhere to purchase food/snacks within Sussex House.

If you are a diabetic and are coming by hospital transport please remember to bring biscuits/sandwiches with you, and any medications that you may require.

Transport

If you are eligible for transport your return journey will be at least an hour and half after your arrival.

Clinical

On your 1st visit you will be seeing the consultant or member of the team for consultation. Any procedures that are required will usually be done at a later date.
We sometimes have more than one clinic running at one time, so patients arriving after yourself and being called before you does not mean you have been forgotten, but please do check with reception if you feel you have been waiting a long time. Sometimes the clinics do run late. We aim to see every one as quickly as possible; unfortunately some people do need extra time with the doctor which will delay the clinic. Please bear this in mind when parking.

You are very welcome to bring a relative or friend along with you as it is always helpful to have a second pair of ears.

Parking

There is a hospital car park but the location is a significant walk from Sussex House and it usually gets full very quickly. We do not recommend you use the hospital car park as you need to get in to a queue and this can delay you for your appointment. There is on street parking around and on the sea front, disabled bays are available.
If you do not understand this leaflet, we can arrange for an interpreter.
